EDITORIAL SCOPE

*Pellet Mill Magazine* is the No. 1 source for wood pellet industry news, trends and statistics. Through our print publication and website, we deliver both daily news and industry trend features to our audience of producers, service providers and vendors. *Pellet Mill Magazine* gives producers the well-organized information they need to keep their production and efficiency on pace with the rest of the industry.

Our quarterly print magazine offers readers thoroughly researched, staff-written feature articles, contributions from the industry’s most well-known names, and opinion pieces from the advocates the pellet industry looks to for support. They cover finance, policy, regulations, equipment innovations, export markets, operational efficiency, staffing and more. Meanwhile, the www.biomassmagazine.com website delivers the breaking and spot news our readers want to digest daily. It’s all sent out in the newsletter the first and third Tuesday of each month.

Readers also can stay on top of the layout of their industry, using the annual *U.S. & Canada Fuel Pellet Production Map*. Through incredible effort by our team, we possess the most up-to-date, accurate information on pellet plant sizes, locations and operational statuses. The map hangs on control room walls all across the country.

Our reach hits all corners of the world, and the global industry converges each year for *Biomass Magazine*'s International Biomass Conference & Expo. Boasting about 850 attendees and 140 trade show vendors, it’s the industry’s largest event. Informational webinars and the biomass industry directory round out the pellet industry coverage provided by *Pellet Mill Magazine*. We don’t miss a thing.
